

Honoring your creative spirit puts you into play, imagination, creativity, adventure, laughter, fun, and spontaneity mode. This is where creation is born; new ideas. Your heart re-opens to your intuition and ignites the child within you. This inspires emotional intelligence. Heals your soul and raises your money vibe.

1 Enroll in an artisanal chocolate making class. Everyone deserves chocolate!

2 Learn how to play an instrument (guitar, piano, drums?) Einstein would play his violin to get unstuck while trying to create a formula.

3 Learn the art of virtual reality, augmented reality and/or extended reality - the metaverse.

4 Learn a new romantic language. It will open your heart.

5 Take voice lessons to sing. You may have a Sheryl Crow or John Mayer hiding!

7 How about a tango dance class? That will change the molecules in your body. Your spirit will come alive!

8 Find an unusual local or travel experience at Airbnb, Viator, or Withlocals. Biking around the vineyards in San Ynez Valley, CA. Walking food tour in Florence, Italy. Hot air balloon ride in Montana over National Glacier Park.

9 Enroll in an art class with pastels, oils, or watercolor. This is beautiful therapy for your heart and soul.

10 Enroll in a floral design class to spark your creativity!
